

*Darryl Davis*

## AV Requirements

**Darryl Davis is flexible and will work with whatever room setup the Client has. Because we get frequent requests what setup works best, here is our recommendation:**

- A wireless Lavalier lapel microphone
- An LCD projector for use with laptop (MAC) and PowerPoint Presentation. Darryl will use his laptop for his session.
- High top table to hold laptop on the floor center stage to act as confidence monitor. If confidence monitors are set else where the high-top is not needed.
- One flip chart and markers stage left
- Darryl does not need a podium; it only gets in the way of the audience seeing clearly.

For further clarification, we would be happy to provide a room diagram and meeting room checklist to provide to the facility.
